Reference Letter for Mr. Chongyu Zhang

Dear Sir or Madam,

Mr. Chongyu Zhang is a student of Master *Mechatronics and Robotics* at the Technical University of Munich. Furthermore, he was working as a research assistant at our Institute of Automation and Information Systems in April/May (April 1st – May 10th, 5h/week) and September/October (September 1st – October 31th, 5h/week) of 2022.

In our lectures, Mr. Zhang has achieved excellent results. In the "Practical Course Simulation Technology", he attained the grade of 1.3 (with 1.0 being the highest score). Similarly, in the "Practical Course Development of Intelligent Distributed Embedded Systems in Mechatronics", he also achieved the grade 1.3 and subsequently took on the role as a tutor.

From our experience with him as a tutor, Mr. Zhang is highly motivated and committed to his work. He demonstrates the ability to work independently and effectively. His ideas, implementations, and results based on his profound knowledge satisfied the requirements at any time. Furthermore, he reacts well to feedback and strives to improve the quality of his work constantly. His behavior towards his superiors, colleagues, and students was always exemplary and friendly.

Yours sincerely,

Prof. Dr.-Ing. Birgit Vogel-Heuser
