hackaTUM

Certificate of

Performance

presented to

Chongyu Zhang

for taking first place in the „Cloud-based AI Inspection"
challenge from Accenture GmbH at **hackaTUM** -
the official Hackathon of the Technical University of Munich
held on November 19 - 21, 2021.

The winning project „DeepDefectDetector" used deep learning
to analyze the image feed from a remote production
and robustly detect defects.
